RoundGTA/R	8.00	-----	-----	4.00	4.00	4.00

Packaging Options

The SKU/Pkg column indicates the packaging options that are available. For quantities less than 500, there is no price difference between the various packaging options. Please choose the option that works best for your sales environment while also trying to minimize the waste. Bulk packaging is the default, please specify if you need additional packaging.

R - Retail Packaging

Each product is individually packed. Typically this is in a polyethylene bag with a stapled tag that can hang from a point-of-sale rack. The products will have a UPC barcode. Map Rulers and Ruler Sets are packaged in a vinyl pouch, with a hang tag and UPC bar code. Products not manufactured by MapTools will be individually packed, able to hang on a POS rack and have a UPC barcode. But they may be in a blister pack, poly shell or something else.

S - Envelope

Each product is in an envelope with the name, picture, and a UPC bar code on the outside. The envelope also contains an instruction sheet. There is no way to hang these from a POS rack.

C - Carded

Each product is stuck to a card with product information and a UPC bar code. There is no way to hang these from a POS rack.

B - Bulk

Just the product, no other packaging. We usually shrink wrap bulk products into bundles of 25.
